

ELEMENTS BEHAVIORAL HEALTH PROFESSIONAL WORKSHOP SERIES

The New Opiate Epidemic: Heroin, Fentanyl and New Synthetics

Presenter: Kristine Nutt, LCSW, LCAS

Heroin-related deaths have drastically increased in the last few years with the largest increase involving synthetic opiates – particularly fentanyl.

- Introduction to heroin, fentanyl and other synthetics.
- Identify factors driving the heroin crisis, including state and regional trends.
- Discuss treatment considerations, assessment, intervention and prevention strategies.
